Preface

WITH the publication of this Volume of the Herd Book the Society welcomes the foundation of several new herds in various parts of the country. This fact enables us to record that, in spite of the regrettable dispersion of the Druid Herd belonging to the late secretary, the total number of British White cattle in the country, as disclosed by the Census on Page —, stands very much at the same figure as it did a year ago.

The attention of members is drawn to the fact that, in the interests of printing economy and in conformity with the decision of the Annual General Meeting (1950), the Society's Rules and Bye-Laws, etc., have been omitted from the present Volume. It will be recalled that, in the absence of any major alteration in the Rules, it was decided to reprint these only every third year.

A. K. VENNOR,
Secretary.
